

FTA is on the map.

WE'RE MAKING THE INDUSTRY BE HEARD.

LEVERAGING OUR VOICE FOR CHANGE.

1

Florida Trucking Association is one of the oldest and most respected associations in the state—promoting and protecting the trucking industry for almost 90 years. FTA is the sole state liaison between the trucking industry and the legislative, regulatory and judicial branches of state and federal government.

The Association represents every sector of trucking: from agriculture, auto transport, LTL, private fleets; to companies relying on trucking to move goods; to manufacturers, banking, insurance and law firms that provide services to the industry.

2

FTA is one of 50 state trucking associations that is a part of American Trucking Associations.

This Federation represents roughly 35,000 member companies and leverages the strength and size of membership in order to develop, advocate, and advance innovative research-based policies that promote highway safety, security, environmental sustainability and profitability.

FTA has a lot of horsepower. We harness that power and focus on the needs of our members so they can keep their eyes on the road.

FTA is at the forefront of policy making, regulatory reform, safety practices and technological developments for trucking.

FTA has cultivated strong relationships with state and federal leaders who listen to us and prioritize our needs. We communicate regularly with and have a direct line to the decision-makers.

FTA is visible. Our voice is heard and we are seen—we are considered the preeminent thought-leaders on trucking issues in Florida. The Association and its members are featured regularly in print, television, podcasts and social media. We are invited to participate in press conferences, roundtable discussions and individual meetings in Capitol offices in Florida and Washington, D.C.
